DEATHS OF FELLOWS OF THE ACADEMY

MANN, JOHN, M.D., Old Westbury, Long Island; graduated from New York University in 1884; elected a Fellow of the Academy December 2, 1897; died August 20, 1935. Dr. Mann was a member of the State and County Medical Societies, and a member of the American Medical Association. He was one of the founders of the Nassau Hospital and was one of the Charter Members of the Medical Society of Nassau.

McPHERSON, ROSS, B.A., M.D., 842 Park Avenue, New York City; graduated from Harvard University (B.A.) in 1898 and graduated in medicine from Harvard Medical School in 1902; elected a Fellow of the Academy May 6, 1909; died August 17, 1935. Dr. McPherson was a member of the American Medical Association, a Fellow of the American College of Surgeons, a member of the American Society for Obstetrics, Gynecology and Abdominal Surgery, and a member of the Alumni of the Lying-In Hospital. He was Consulting Obstetrician to the Dobbs Ferry, Hackensack, Holy Name, Teaneck, and the Mather Memorial (Port Jefferson and Long Beach) Hospitals, and Professor of Gynecology and Obstetrics in the New York Polyclinic Medical School and Hospital.

FREDERICK C. HOLDEN	ARTHUR KRIDA, <i>Secretary</i>

* Executive Committee

Invitation

•

THE NEW YORK ACADEMY OF MEDICINE extends a welcome to all members of the medical profession.

THE LIBRARY is one of the largest of its kind in the United States. Its files of American and foreign periodicals are very complete. A bibliographic and photostat service is available for visitors at the usual library rates.

MEETINGS. Besides two Stated Meetings of the Academy held each month, there are monthly meetings of the eleven different groups of Fellows organized into Sections devoted to various branches of medicine and surgery and to historical and cultural medicine. Many other medical societies of the city, some of which are affiliated with the Academy, meet at the Academy.

LECTURES. A series of Friday afternoon lectures on subjects of special interest to the practitioner is given each year, beginning in November.

THE ANNUAL GRADUATE FORTNIGHT is held in October on a subject of outstanding importance in the practice of medicine and surgery and consists of meetings at the Academy, coordinated clinics in selected hospitals, and a large scientific exhibit.

BUREAU OF CLINICAL INFORMATION. The Committee on Medical Education maintains at the Academy a Bureau of Clinical Information where detailed information may be obtained regarding opportunities for postgraduate medical study in Greater New York, and also in other cities of the United States, Canada and Europe.

The Bureau publishes a Daily Bulletin which announces the meetings, lectures, conferences, hospital rounds, and other interesting medical activities of the day. A Surgical Bulletin, issued the previous evening, announces the major operative work of leading surgeons of the city, performed in the clinics of more than sixty important hospitals.

A Bulletin of Approved Non-Operative Clinics is also published. This Bulletin lists clinics in twenty-three special subjects held in thirty-three general and special hospitals. Copies of the Bulletins and of a Synopsis of Approved Postgraduate Medical Courses Offered in Greater New York may be obtained at the Bureau and will be mailed upon request.

The Bureau maintains an approved list of clinicians who practice in foreign countries, and is prepared to answer inquiries from physicians who desire information regarding foreign medical men engaged in general and special practice.

Visiting physicians are invited to make the Bureau their headquarters while in the city.
